

# Powerit-Now High Capacity Power Bank

## Powerit-Now High Capacity Power Bank

- The Powerit-Now High Capacity Power Bank boasts a 20W 20,000mAh battery – a real powerhouse. Still compact enough to easily slip in and out of a backpack it can be used for travel, at a convention or trade show.
- This power bank also has the Quick Charge QC3.0 facility to deliver fast charging to multiple devices at the same time, using the micro USB and USB-C cables. There is an option to add a USB-C to lightning cable.
- With the option to customise using full colour digital print and spot colours, this makes the ideal premium tech gift.

## Packaging

### Standard Packaging

Standard packaging in a white card box

### Custom Packaging

Standard packaging plus a custom sleeve. A full colour printed sleeve that wraps around the standard box, to allow customisation with logo and corporate messages.
